### What My 77 Years of ADHD Have Taught Me

Presented by: **Dr. Keith Clayton**

Dr. Keith Clayton attended BYU on scholarship. He graduated from the University of Utah Medical School receiving the Dr. Russel Nelson Award for compassionate patient care. Dr. Clayton specialized in ADD/ADHD and Emotional Health in the Utah Valley area. He is currently replaced in his pediatric office by his son, Dr. Matthew Clayton.

He and his dear wife, Connie, are the parents of eight children and have twenty-eight grandchildren so far. Because members of his own family have ADD/ADHD, Dr. Clayton has a special interest in this disorder. Though he retired from active practice in 2013 after 43 years of patient care, he is still very active in what he calls "Loving Service."

If Dr. Clayton might be of any personal help to you, contact him at:
