

# FACT vs. MYTH

## On ADHD

Is it for real, or just an excuse?  
What really is ADHD?  
What is its cause?  
What is the impact of untreated ADHD?  
Isn't medicine always the solution for ADHD?  
Isn't medicine all my child needs?  
Where can I get more research based information?  
What are some of the common misperceptions about ADHD?

These and many other questions will be answered in a 2 hour single session class

January 19 (TH)

March 16 (TH)

May 18 (TH)

- Classes: Are free
- Please bring something to take notes
- We will provide a Power Point packet for you

Held at the McKay Dee Hospital in the Education Center  
(South end of first floor)  
From 6:00 to 8:00 pm.

Taught by community professionals with a background in AD/HD  
This class is taught at McKay-Dee Hospital because of its central nature, but it has no affiliation with any particular provider or insurance.

**Pre-registration** is **mandatory** and can be done through  
Kathy Chatelain at (801) 387-3740
